Kleines Seminar, RCOA at ECNU

学年　2024 年春季学期, 2024 年 4 月 2 日起至学期末

地点　理科大楼 A503 室　　　　　　　　　时间　周一下午 13 点至 14 点

报告者/时间	报告内容
Georgii Makeev 博士 5 月 13 日	Title: An endofunctorial approach to E-theory Abstract: We are going to describe the Connes-Higson E-theory in terms of special homotopy classes of *-homomorphisms induced by some Roe algebra functors. We also introduce an E-theoretic analog of the famous isomorphism of the Kasparov KK-theory and invertible extensions.
